

CERTIFICATE in AYRES SENSORY INTEGRATION® (CASI) 2026-27 MACAU

Organized by

CREST Child Rehabilitation and Education Service Team

In Collaboration with

CLASI

Collaborative for Leadership in Ayres Sensory Integration

The Certificate in Ayres Sensory Integration® (CASI), is issued by **CLASI, an Approved Provider of continuing education by the American Occupational Therapy Association (AOTA)**. The ASI Certificate ensures that its learners have completed a minimum of a **total of 120 contacts hours** and participated in designated activities aimed at acquisition of knowledge and skills in sensory integration, in accordance with the international requirements (i.e. **ICEASI standard**), as follows:

- The theoretical foundations of sensory integration based on the original work of Dr. A. Jean Ayres
- Updated basic and applied science related to sensory integration theory
- The contributions of sensory integration to typical development
- Administration of relevant evaluations of core sensory integrative functions (e.g. the Evaluation in Ayres Sensory Integration® (EASI), the Sensory Integration and Praxis Tests (SIPT); the Sensory Processing Measure (SPM™), Ayres' clinical observations, etc.)
- Clinical reasoning guiding the use of sensory integration in clinical practice
- Interpretation of the results of the evaluation data based on research on the patterns of sensory integration function and dysfunction
- Goal preparation and intervention planning
- The implementation of professional therapeutic intervention, with a focus on sensory integration strategies in different contexts
- Leadership and mentorship of theory, practice and research in ASI
- Reviews of existing research, and ways in which to plan and implement research related to ASI
- Avenues for advocacy in promoting evidence-based practice in ASI for consumers

CASI Modules:

Module 1: Online	- Ayres Sensory Integration® (ASI) Theory
Module 2: Online	- Comprehensive Assessment in ASI
Module 3: Onsite	- Comprehensive Assessment in ASI: Hands-On Practice
Module 4: Online	- Clinical Reasoning using ASI
Module 5: Online	- Evidence-based ASI Intervention Including Fidelity to Intervention
Module 6: Onsite	- Evidence-based ASI Intervention Hands-On Practice and Review

****ALL 6 modules including quizzes and assignments are required for the CLASI CASI – Certificate in ASI**

Module 1

Ayres Sensory Integration® Theory

Course Description:

The latest advancements in neuroscience support the application of the theory of sensory integration as an approach to dealing with children, adolescents, adults, and older adults. This module will provide the therapists a theoretical basis for the application of the theory of sensory integration for the clinical practice.

The focus of the first module will be on the theory of sensory integration, the central nervous system, the neuroscience of sensory systems, modulation, praxis, and the principles of evaluation and intervention in sensory integration. This online module provides in-depth lectures accompanied by supplemental videos and assignments to enhance your experience.

Learning Objectives:

Following this course, participants will be able to...

- Define scientific theory, model and frame of reference
- Recognize core principles and concepts of Ayres Sensory Integration® Theory
- Describe the common patterns of sensory integration dysfunction and their proposed neural correlations
- Describe the neurological structures and their functions involved in the process of sensory integration
- Describe the relationship between sensory integration and participation in everyday activities and occupations
- Describe the functional implications and occupational factors in relation to changes of sensory impairments
- Discuss the praxis and its role in performance and behavior

Format:

Module 1: Online (30 hours)

Starts in Mid–April, 2026 (accessible for 1 year)

To be **completed by 24th Oct, 2026 if to join Module in Oct & Nov 2026**

Target Participants:

- All interested individuals.

Course Completion Requirement(s):

- Please see the link below and refer to the **page 2** of 'Requirements and Assignments'.

<https://bit.ly/202526CASIREquirementsandAssignments>

Module 2

Comprehensive Assessment in Ayres Sensory Integration®

Module 3

Comprehensive Assessment in Ayres Sensory Integration® Hands-On Practice

Course Description:

Modules 2 and 3 are designed to teach evaluations of Ayres Sensory Integration® function and dysfunction that include: Evaluation in Ayres Sensory Integration® (EASI), The Sensory Integration and Praxis Tests (SIPT), Sensory Processing Measure (SPM™), structured and unstructured clinical observations.

Learning Objectives:

It is intended that at the end of the trainings for Modules 2 and 3, participants will be able to:

- Determine an assessment plan for a client
- Determine the evaluations appropriate to assess ASI constructs in all areas
- Analyze the psychometric strength of the evaluations
- Reliably administer the EASI
- Understand the constructs tested by the EASI, SIPT, SPM™ and related measures
- Design clinical observations of sensory integration constructs when standardized measures are not possible
- Demonstrate competence in the application of clinical observations based on ASI
- Administer the Sensory Processing Measure (SPM™)
- Identify whether an evaluation report meets the standard for structural elements on ASI Intervention Fidelity Measure

Format:

Module 2: Online (30 hours including assignments)

Starts in **June, 2026 (accessible for 1 year)**

To be **completed by 24th Oct, 2026
if to join Module in Oct & Nov 2026**

Module 3: Onsite*

Date / Time: 24th-25th, 31st Oct & 1st Nov 2026 (Sat - Sun) / 0930 – 1730

Venue: Macau (Exact location to be confirmed 1 month prior to the course)

Language: Mainly in Cantonese, supplemented with English

**Course materials are available in English only*

Instructors: Dr. Stephen Tsz Man Chan (OTD, MSc, BSc (Hons) in OT, HKROT)

**Exact time and venue are subject to change. In case if onsite teaching is not preferred due to unforeseeable circumstances, the teaching format may be changed to online live meeting. CREST Child Rehabilitation and Education Service Team reserves the right on final decision.*

Target Participants:

Module 2: Occupational therapists who **have completed Module 1.**

Module 3: Occupational therapists who **have completed Module 1 and 2.**

Course Completion Requirement(s):

- Please see the link below and refer to the **page 2-3** of 'Requirements and Assignments'.

<https://bit.ly/202526CASIREquirementsandAssignments>

Module 3 Material List (Provided by organiser):

Item	Materials	Quantity
1	EASI test forms	3 sets
2	EASI Scoring Guide	1 set
3	Test 1 visual design test form	3
4	Test 13 paper with vertical line printed down the center of paper	4
5	Test 14 hand and feet A4 trial sheet and A3 test sheet	3
6	Test 19 trial and test oral template (cardstock paper)	1
7	Test 20 sensory reactivity template	1
8	<p>EASI Starter Kit:</p> <ul style="list-style-type: none"> • Pipe cleaner x 1 • Paper clip x 1 • Plain cloth napkin (50x50cm) x 1 • Cotton balls x 3 • Crayon x 1 • Square wooden block (1 inch) x 1 • Empty plastic bottle “rice bottle” x 1 • Pencil with eraser on top x 1 • Pencil without eraser on top x 1 • Fine tip marker x 1 • Ruler x 1 • Puzzles x 1 set <ul style="list-style-type: none"> • A4 stand x 1 • Paper shield x 1 • Metal chopstick x 1 • Dog “clicker” x 1 • Small paint brush x 1 • 3D printed shapes x 1 set of 68 pcs • Metal strips x 4 • Magnetic white board set x 2 pcs • Shelf as shield x 1 • Cover cups x 12 • Binder clip x 1 • Bottle carrier x 2 • Bottles for oral shapes x 2 	

Module 4

Clinical Reasoning Using Ayres Sensory Integration®

Course Description:

Module 4 focuses on clinical reasoning based on research and evaluation data to understand the findings and make recommendations for goals and services. Trainings leading to knowledge and skills in clinical reasoning allows the learner to understand relationships in the assessment data and relationship to participation, informing recommendations for services.

Learning Objectives:

It is intended that at the end of Module 4, participants will be able to:

- Describe the patterns of sensory integration function and dysfunction
- Analyze, interpret assessment results according to the patterns of SI function and dysfunction
- Relate the data obtained through the application of the instruments with the difficulties of occupational performance of the individual
- Identify client-centered goals and objectives from presenting concerns linked to the interpretation
- Create the intervention plan based on the evaluation performed
- Determine how the intervention will be conducted and effect various contexts, in children identified with sensory dysfunction

Format:

Module 4: *Online (30 hours including assignment)*

Starts in *Mid-Nov, 2026 (accessible for 1 year)*

To be **completed by 3rd Apr, 2027 if to join onsite Module 6 in April, 2027**

Target Participants:

- Occupational therapists who **have completed Module 1, 2 and 3.**

Course Completion Requirement(s):

- Please see the link below and refer to the **page 4** of 'Requirements and Assignments'.

<https://bit.ly/202526CASIREquirementsandAssignments>

Module 5

Evidence-based ASI Intervention Including Fidelity to Intervention

Module 6

Evidence-based ASI Intervention Hands-On Practice and Review

Course Description:

Module 5 introduces the research and manualized methods of ASI intervention including the Fidelity to ASI Intervention measure that assists researchers and clinicians to distinguish between interventions that are faithful to the principles of ASI and those that do not meet the criteria.

In Module 6, learners are taught intervention strategies specific to Ayres Sensory Integration®. The trainings leading to competency teaches implementation of an intervention plan based on the interpretation of the results of tests as demonstrated and discussed. The clinical reasoning and resolution of problems of a specific case study are used by all participants.

Learning Objectives:

Following these courses, participants will be able to...

- Apply clinical reasoning in the design and implementation of intervention for individuals with sensory integration difficulties or dysfunction
- Link the hypothesis from the assessment with therapeutic proximal goals toward meeting proximal, participation-related outcomes
- Use dynamic assessment while working with clients to refine the intervention during treatment
- Name the process elements of the ASI Intervention Fidelity Measure
- Describe the way in which the process elements interact during a direct intervention session
- Explain the relationship between the activities and the facilitation of adaptive responses
- Explain the importance of the client's motivation and active involvement during the intervention
- Discuss the benefits and limitations of ASI intervention with a wide variety of diagnostic groups, ages, and types of difficulties
- Demonstrate the way in which sensory strategies are implemented in various contexts, including the home, school, and the community

Format:

Module 5: **Online (30 hours including assignment)**

Starts in **Jan, 2027 (accessible for 1 year)**

To be **completed by 3rd Apr, 2027 if to join onsite Module 6 in April, 2027**

Module 6: **Onsite***

Date / Time: 3rd - 4th & 10th - 11th Apr, 2027 (Sat & Sun) / 0930 - 1730

Venue: Macau (Exact location to be confirmed 1 month prior to the course)

Language: Mainly in Cantonese, supplemented with English

**Course materials are available in English only*

Instructors: Dr. Stephen Tsz Man Chan (OTD, MSc, BSc (Hons) in OT, HKROT)

**Exact time and venue are subject to change. In case if onsite teaching is not preferred due to unforeseeable circumstances, the teaching format may be changed to online live meeting. CREST Child Rehabilitation and Education Service Team reserves the right on final decision.*

Target Participants:

Module 5: Occupational therapists, physical therapists, speech and language pathologists and medical professionals (e.g. psychologists, neuropsychologists and physicians) who **have completed Module 1, 2, 3 and 4.**

Module 6: Occupational therapists, physical therapists, speech and language pathologists who **have completed Module 1, 2, 3, 4 and 5.**

Course Completion Requirement(s):

- Please see the link below and refer to the **page 4-5** of 'Requirements and Assignments'.

<https://bit.ly/202526CASIREquirementsandAssignments>

About Instructors:

Dr. Stephen Tsz Man Chan (OTD, MSc, BSc (Hons) in OT, HKROT)

Stephen is an occupational therapist based in Hong Kong and the founder of CREST Child Rehabilitation and Education Service Team. He focuses on providing occupational therapy services to children with various developmental and learning challenges.

In addition to his clinical work, Stephen teaches professional training courses on various topics such as Ayres Sensory integration, Beckman Oral Motor Assessment and Intervention, Irlen® Syndrome, and the Hi-FIVE™ Approach to handwriting and pre-writing. These courses equip professionals with essential skills to support children's development effectively.

Stephen is also the co-founder of Possible Technology and SEN Technology, companies that develop innovative tools, utilizing eye trackers and tablet apps, to enrich assessment and training in therapy. He is also committed to integrate technology into occupational therapy.

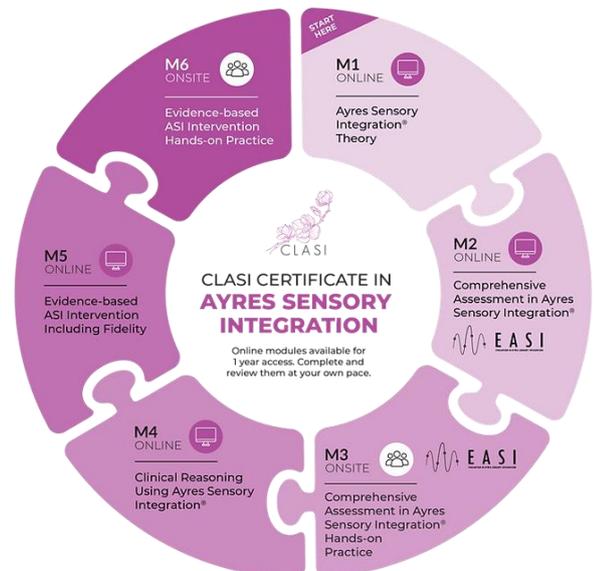

Moreover, he has contributed to research as the regional lead for the normative data collection of the Evaluation of Ayres Sensory Integration (EASI) in East and Southeast Asia to enhance the representativeness of the assessment result to Asia regions.

Course Sequence:

The Modules build upon each other. Module 1 is designed to help participants become conversant in theory related to sensory integration and serves as an introduction to the forms of assessment taught in Module 2 and 3. Module 2 and 3 are a prerequisite to Module 4, which focus on the interpretation of test results, e.g., EASI, SIPT results. Module 5 and 6 builds on the elements introduced in all of the previous Modules.

We **recommend participants to attend the Modules in sequence** and believe those who take the Modules out of order will be at a disadvantage. However, if participants need to **take the Modules out of sequence, special approval from program coordinator is required.**

Certification:

Participants who fulfill the requirement of **completing all 6 modules including the assignments** are eligible for applying the Certificate in Ayres Sensory Integration® issued by Collaborative Leadership in Ayres Sensory Integration (CLASI). This program is adhering to the **standard of International Council for Education in Ayres Sensory Integration (ICEASI)**. Please be aware that **ALL 6 Modules must be completed within a 5-year time span in order to qualify for certification.**

**** Please read the Certification Requirement & Assignment Information at**

<https://bit.ly/202526CASIREquirementsandAssignments> before applying for the course.

Attendance Policy:

- **Missed more than two hours:** Attend that day at another site at no charge or arrange for tutorial with a CLASI approved instructor with fee paid to instructor as arranged.
- **Missed less than two hours:** Review materials, complete self-study hours with written assignment guaranteeing learning hours. Check in with instructor.

Course Fee:

The Certificate in Ayres Sensory Integration® Course (CASI)						
Module	1	2	3	4	5	6
Format	Online [#]	Online [#]	Onsite (Macau)	Online [#]	Online [#]	Onsite (Macau)
Period / Date	Mid-April 2026-27	June 2026-27	24 th , 25 th , 31 st Oct; 1 st Nov 2026	Mid-Nov 2026-27	Jan 2027-28	3 rd - 4 th & 10 th - 11 th April, 2027
Course Fee	Module 1- 6: HK\$29,600 / HK\$29,400* 31 st March 2026					

SIPT to EASI conversion		
Module	2	3
Format	Online [#]	Onsite Macau
Period / Date	June, 2026-27 Completed by 24 th Oct 2026	24 th , 25 th , 31 st Oct & 1 st Nov 2026
Course Fee	Module 2 & 3: HK\$13,000 Deadline: 31 st March 2026	

For online modules, you must have access to the internet with live streaming capability.

*** Discounted price for HKOTA members**

Payment Methods:

For Local Applications:

- **By FPS / Online Bank Transfer:**
 - ✚ Bank / FPS Code: HSBC / 8919052
 - ✚ Bank Account Name: TSRCL T/A CCR&EST
 - *Please put "CASI 2026-27 Macau and **PARTICIPANT'S FULL NAME**" as reference and upload the screenshot of successful transaction together to the online registration form (**the screenshot must include the transaction date, amount and reference number**).
- **By Cheque:**
 - ✚ Payable to "**CREST Child Rehabilitation and Education Service Team**"
 - *Please write down **PARTICIPANT'S FULL NAME** and **COURSE NAME** (i.e., CASI 2026-27 Macau) **at the back of the cheque** and send to the address below:
"To: CREST Child Rehabilitation and Education Service Team
Room 706, Peninsula Tower, No. 538 Castle Peak Road,
Lai Chi Kok, Kowloon, Hong Kong (SAR)"
- **By Automatic Teller Machine (ATM):**
 - ✚ Bank / Account No.: HSBC / 634-388821-838
 - ✚ Bank Account Name: TSRCL T/A CCR&EST
 - * Please write down **PARTICIPANT'S FULL NAME** and **COURSE NAME** (i.e., CASI 2026-27 Macau) **on the bank advice slip** upload it to the online registration form.

For International Applications:

- **By Telegraphic Transfer (TT):**
 - * Please see the "Telegraphic Transfer (TT) Instructions for CREST" for details in the following link: <http://bit.ly/ttinstructions>, and upload the TT bank advice slip together with the online registration form.
- **By Credit Card (in USD)** through stripe.

Terms & Conditions:

(i) Notification:

Notification will be sent individually through email after the application and payment are received **within 1 week**.

(ii) Confirmation:

The confirmation will be sent individually by email by:

Module	1	2	3	4	5	6
Date	10 th Apr 2026					

(iii) Receipt:

- Official receipt will be sent by email individually.
- HK\$500 administrative fee will be required for re-issuing receipt or certified true copy of receipt.

(iv) Certificate:

- Certificate(s) of attendance of online and onsite course(s) is/are issued upon completion of module(s) through Edvance360 online platform and the required assignment(s).
- Complete the application in the link below or scan the QR code to apply for the CASI Final Certificate:
<https://www.cl-asi.org/clasicasiapplication>

(v) Withdrawal Policy:

- No refund, and no transfer of fees to other courses or another person upon confirmation of enrollment.

(vi) CREST Child Rehabilitation and Education Service Team reserves the right on final decision on enrollment and cancelation of the course due to unforeseeable circumstances.

Remarks:

Registration: To register, please complete the online registration form at:

<https://cresthk.typeform.com/26-27CASI-MACAU> or scan the QR code to register.

Enquiry: Miss. Ma at (852) 3628 3443 or info@crest.hk.
